Subject: Item 23- continuation

Dear Supervisors – I support postponing the discussion of Item 23 until safety personnel are available to attend and comment on the fire.

I know from experience that a continuation can be a great inconvenience to the public who are planning to attend but this issue is unique in the repercussions on health and safety of the public. It is imperative that safety personnel are able to attend and comment and answer questions in person.

After considering the pros and cons, I hope you see the importance of continuing the item and re-scheduling as soon as possible.

Regards,
Susan Harvey
